November 22, 1950

Dr. Joshua Lederberg,
Associate Professor of Genetics,
The University of Wisconsin
College of Agriculture
Madison 6, Wisconsin

Dear Dr. Lederberg:

I should like to thank you very
much indeed for sending me the culture of your K-12
strain of E. coli.

Our library, unfortunately, does
not yet have Volume 3 of "Methods in Medical Research."
Could you give me another reference to Davis' synthetic
medium?

Sincerely yours,

Irving M. Klotz
